NIPSCO ENERGY MINUTE - MAIL SLOTS

MERRILLVILLE, Ind. – In an effort to help customers manage winter heating bills, Northern Indiana Public Service Company (NIPSCO) today releases the eleventh in a series of ongoing public service announcements called “Energy Minute” to print and broadcast media outlets across NIPSCO’s service area. These tips are aimed to help customers manage their natural gas bills this winter heating season by using energy wisely.

Replace mail slots with external mailboxes. Older homes often have mail slots – a slit in the door or wall of a house or apartment – where mail can be delivered and precious heat could escape. Consider sealing the slit and replacing it with an external mailbox. For these and other tips on how to use energy wisely, connect with NIPSCO at www.nipSCO.com.
