NIPSCO Announces Gas Cost Adjustment For April

MERRILLVILLE, Ind. – Northern Indiana Public Service Company (NIPSCO) announced today that natural gas costs for April 2005 increased compared to last month. NIPSCO residential customers will see an increase in natural gas costs of more than 13 percent when compared to March 2005. The Indiana Utility Regulatory Commission (IURC) approved the adjustment subject to refund.

A typical NIPSCO residential customer using 100 therms of natural gas should expect an increase of approximately \$13.49 from last month's statement in their April billing, although total bill amounts will vary as a result of actual consumption.

Anticipated higher demand for natural gas, as storage operators and power generators begin to compete for limited supplies, have pushed wholesale natural gas prices to their highest levels so far this year.

Qualifying low-income customers who have been shut-off or who are facing service termination because of unpaid utility bills may be eligible for the NIPSCO Winter Warmth program administered by 26 social service agencies since mid-December throughout northern Indiana.

For natural gas customers who want consistent monthly payments, NIPSCO's BudgetPlan allows customers to spread gas costs over an entire year. The NIPSCO Choice program gives customers an opportunity to choose an alternative natural gas supplier, and NIPSCO's Price Protection Service option allows customers to fix or cap their per unit cost of natural gas.

The GCA is an allowed monthly adjustment to the gas supply charge portion of NIPSCO's natural gas service rates. The adjustment, which must be approved by the IURC, reflects the fluctuations in the price NIPSCO pays in the marketplace for natural gas. The company passes on the costs of the natural gas directly to customers without any markup under its traditional, regulated GCA service option.
