NIPSCO ENERGY MINUTE - FURNACE INSPECTIONS

MERRILLVILLE, Ind. – In an effort to help customers prepare for the winter heating season, Northern Indiana Public Service Company (NIPSCO) today releases the third in a series of ongoing public service announcements called “Energy Minute” to print and broadcast media outlets across NIPSCO’s service area. These tips are aimed to help customers manage their energy bills this winter heating season by using energy wisely.

Schedule a furnace inspection. Contact a registered heating contractor to inspect your furnace. Filter and cleaning upgrades could be completed now before nighttime temperatures turn colder. An inefficient furnace is more expensive to operate. For more information on how to use energy wisely, log onto www.nipsco.com.

NIPSCO, with headquarters in Merrillville, Ind., is one of the 10 energy distribution companies of NiSource Inc. (NYSE: NI). With nearly 700,000 natural gas customers and 440,000 electric customers across the northern third of Indiana, NIPSCO is the largest natural gas distribution company, and the second largest electric distribution company, in the state. NiSource distribution companies serve 3.8 million natural gas and electric customers primarily in nine states. More information about NIPSCO is available at www.nipsco.nisource.com.
